Caution regarding forward-looking statements

In this annual report we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other statements - written and oral - that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expect', 'project', 'intend', 'plan', 'believe' and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realized, although we believe we have been prudent in assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. We undertake no obligation to publicly update any forward looking statements, whether as a result of new information, future events or otherwise.

CHAIRMAN'S MESSAGE

Our investments in the custom manufacturing solutions (CMS or CRAMS) are now reaping the benefits of the seeds sown in the distant past. We are seeing good traction in the CMS space and these are exciting times for us as we have managed to forge relationships with some of the leading innovator and generic companies across US, Europe and Japan.

Dear Shareholders,

At the outset, let me take the opportunity to thank you for constantly engaging with us across multiple forums and sharing your valuable feedback from time to time. Your suggestions and constructive criticism go a long way in enhancing our messages and corporate governance practices at every given instance. We believe that these continuous improvements will put in place a company that will be cherished by the shareholders not only for its financial performance but also for upholding highest values of ethics and governance.

Operationally, fiscal 2016 has been a rewarding year for your Company as we went past ₹ 500 crores for the first time in our history. However, what is more satisfying is that this growth did not come at the cost of profitability. We ended the year with a revenue of ₹ 511 crores which was 9% up over the last year. The EBITDA at ₹ 81.5 crores increased 21% and this translated to a EBITDA margin of 16%. In keeping with the financial performance, the Board had recommended a dividend of 20% (₹ 2 per share).

Looking at the financials this year, it would have been hard to imagine this over 4-5 years ago when your Company was caught in the midst of business and financial turmoil. The fact that we have bounced back is a clear demonstration of the resilience that your Company has exhibited to tide over the difficult times. And let me reiterate that this was largely accomplished only due to the unflinching support and good wishes of you, our dear shareholders. So let me just spend a few thoughts on what has changed in the last five years.

Neuland has traditionally stayed rooted to its positioning as a pure play API Company. This was a focused and deliberate strategy adopted many years ago on the back of our strong quality systems, compliances to regulatory agencies with a strong research and intellectual property base. This strategy of ours has endeared itself to our customers who do not see any conflicts in our relationship and this has enabled us to be a key supplier to many of our customers.

You would also appreciate that API by its very nature is a commoditized play and hence the pressure was always on us to innovate to stay ahead of the curve in terms of growth with profitability. We thus decided to discontinue certain molecules which while contributing significantly to our topline were harming both the environment and our margins. We also capped our exposure to certain other molecules that were more of a revenue game which did not fit in line with our long term aspirations. Had it not been for these reasons, we would have breached the ₹ 500 crores mark long ago.

Simultaneously, we identified niche molecules in the API space which were the 'high value' added products and our focus has been to develop these molecules from laboratory scale to large commercial quantities. This apart, our investments in the custom manufacturing solutions (CMS or CRAMS) are now reaping the benefits of the seeds sown in the distant past. We are seeing good traction in the CMS space and these are exciting times for us as we have managed to forge relationships with some of the leading innovator and generic companies across US, Europe and Japan.

The focus on niche molecules and CMS has definitely seen the margin profile improving and we see a similar trend as we move forward with the base business continuing to provide us stability in terms of revenues.

Quality is the bedrock on which your Company has been built and I am delighted to state that our Unit 2 and the R & D centre of our fellow subsidiary were audited by the USFDA this fiscal and were found to be in conformity with the highest standards of compliance and procedures. Your Company also entered into an agreement with the API Corporation during the year to buy back the block at our Unit 2 which was specifically constructed for them. This was done keeping in view the urgent need for increase in capacity given the growth targets in sight. Our business relationship with APIC continues to be intact and we see this developing as and when opportunities arise.

It has indeed been a great journey for us in the last three years in terms of bringing about a business transformation and while the whole Company has played a part in it, I would like to highlight the role played by both Sucheth and Saharsh in executing this strategy. Recognizing this, the Board has recommended that they be elevated from their respective roles to designations that better suit their current areas of influence.

Sucheth, in addition to CEO and Whole time director will now also be Vice Chairman taking care of the overall organization's functioning while Saharsh as Joint Managing Director will have the added role of R & D apart from his Sales, Corporate Planning and Business Development roles. The three of us as the Executive Committee will be responsible for charting the strategic direction of the Company. I hope that each of you, with your enthusiasm and participation, continue to support us on this exciting journey.

Finally, I would like to thank our customers, partners, suppliers, regulatory agencies, lenders and shareholders for their continued trust and support. I also acknowledge the commitment, passion and hard work that our management and other employees have been putting in to ensure Neuland continues on its path to becoming the leading API supplier to the pharmaceutical industry.

With Best Regards,

Dr. D. R. Rao

Chairman & Managing Director

INTERVIEW WITH CEO

Mr. Davuluri Sucheth Rao, CEO

We had a progressive year with our financial and operating performance demonstrating the strategy of focusing on niche products, growing the CMS business and Cost Leadership for all molecules

Q How was the year 2016 for the Company?

A 2016 has been an encouraging year and a fiscal of many firsts for the Company. First, we crossed ₹ 500 crores in sales for the first time in the group history. Second, we registered highest ever contribution from CMS (Custom Manufacturing Solutions) business in the total income. Third, in the first year of commercial launch of Salmeterol in the European markets, we achieved higher than budgeted sales for the molecule.

From a financial viewpoint, our revenues grew at 9% to ₹ 511.59 crores as against ₹ 469.15 crores in the previous year. We also improved our EBITDA margins to 16.0% from 14.3% in the previous year. On absolute basis, our EBITDA grew from ₹ 67.15 crores to ₹ 81.49 crores in FY16. We achieved a Profit after Tax of ₹ 26.41 crores which is 67% higher than FY15. From a regulatory perspective, our Unit 2 was inspected by USFDA and the audit was cleared without any major observations. The

R & D facility also got approval by USFDA as a test facility for release of material. This is another milestone in our “on-track” CMS business which also accomplished scale up of 19 molecules (intermediates and APIs) at the laboratory level. We also made significant progress in one of CMS products with the client filing NDA in the US market. In the context of IP, we were also granted four process patents granted for three of our key molecules – Sugammadex, Lacosamide and Paliperidone Palmitate.

In a nutshell, we had a progressive year with our financial and operating performance, demonstrating the strategy of focusing on Niche products, growing the CMS business and Cost Leadership for all molecules. While we have elevated our margins, we have also optimized our product mix with higher contributions from CMS and niche molecule business. I believe, this is the establishment of a new journey for us and we are on track to attain sustainable and profitable growth.

Q There has been a perceived lack of growth in Neuland's top line as well as margins over the last 3-4 years. How do you explain that? And how should investors see the future with Neuland?

A At the macro level, it does appear that we have stagnated between FY12 and FY16. However, this does not layer the evolution that has happened over these years. In 2012, we used to sell over 1220 tons of APIs with average realization \$53 per kilogram. But if you look at the numbers in 2016, we are selling close to 600 tons of APIs at \$118 a kilogram, which means that our realization per kilogram is up by over 120%. Another indicator of the evolution is our top selling molecule which earlier contributed about 56% of the overall sales, but today contributes less than 20%. This clearly indicates the strategic growth we have always talked about. Our strategy has been to continue our focus on niche APIs, growing our CMS business and maintain a dominant position in the base business comprising of Large-volume products. We have optimized our product mix from a high volume intensive to "high value" focused. While this had a bearing on the topline growth, our overall business stayed robust. Consequently, the EBITDA margins which were in low teens have moved up to 16-17% levels.

We have now reached a position where we can leverage on our portfolio to drive an ambitious topline growth and with the operating leverage playing its part, we hope to inch our EBITDA margins closer to 20% level in the medium to long term.

Q Can you throw some colour on business aspects of the Prime APIs, Niche APIs and CMS segments?

A In line with our group strategy, we redefined our businesses for the customers as well as the outside community. Our business now broadly comprises of two verticals - Generic Drug Substance (GDS) which includes Prime products and Niche products, and Custom Manufacturing Solutions (CMS). Between the two verticals, the CMS business contributed close to 17% of the revenues while the GDS registered the balance revenues including 56% from Prime and 27% from Niche.

The prime products which typically include mature APIs with relatively higher competition in API space have historically contributed more than 70% of the total business. Today, the vertical contributes less to the overall scheme largely on account of the growth of the other segments due to our emphasis on high value products. However, Prime products

We have now reached a position where we can leverage on our portfolio to drive an ambitious topline growth and with the operating leverage playing its part, we hope to inch our EBITDA margins closer to 20% level in the medium to long term.

continue to be an important part of our strategy as we are working on the development of new molecules which are expected to be large volume. We expect this segment to continue setting up a base for us, but the growth would not be as aggressive as in the CMS or the Niche APIs. We would continue to emphasize on reducing costs of these molecules coupled with focus on improving yields and efficiencies. In the niche molecule space where we have worked on complex products and technologies, we have had success with a couple of molecules including Salmeterol, Dorzolamide, Brinzolamide, Entacapone and Propofol. We believe this space has a lever to improve our margins and overall API leadership and with a run rate of 8-10 products a year, we should be we poised to grow in high teens in the niche API space.

Coming to the CMS pie of the business, our scale in the business has come after a lot of hard work and persistence. Whatever level that the group has achieved in the CMS has come to us organically with a well laid strategic direction for the future. We have a very focused approach to the business in each territory. For example, we understand the market dynamics of Japan and therefore our efforts are more towards late life cycle products but we would not look at this strategy when it comes to the US where the focus is on drugs in the clinic pipeline. We believe the foundation for growth in CMS is already set and we are likely to expand faster in this vertical. With all resources in place, we foresee a robust future for the business.

Q At a strategic level, does just being a pure play API Company pose challenges to growth given the basic characteristic of the industry? Will you continue to be a pure-play API supplier?

A While most of the API players have either forayed into finished dosage or have announced intentions to be an integrated player, we have always believed that being a standalone or pure play API player brings an advantage to our business. When your partner in the business knows that you would not enter into a competing business, it develops a confidence and trust in you and thus the customer keeps coming back

We want to stay rooted as an API player to leverage on the trust we have built with our customers over the years.

to you for new business and opportunities. We want to stay rooted as an API player to leverage on the trust we have built with our customers over the years.

Coming to the question on growth, we believe from an industry standpoint, there is a huge opportunity for growth in the API space as it is likely to become ~\$180 bn industry by 2020 and India will continue to command its premium position. In the medium to long term, Neuland has a well stated strategy of focusing on APIs and we would continue to be a pure play API partner of choice with strong base in research, quality, regulatory compliance and manufacturing efficiencies.

Q This year we announced renegotiation with APIC, what led us to this and how does the outlook changes with this?

A Just to restate, we entered into an exclusive deal with API Corporation (APIC), the Tokyo Based group Company of Mitsubishi Chemical Holdings Corporation in FY13. On the basis of the collaboration, we had commissioned a new manufacturing block which was funded by APIC and was accounted into their books. As per the terms, the facility was dedicated to produce material for APIC and in return for it, we would have received cost plus mark up from APIC. However, with the changed business dynamics at APIC level and also the underlying economic scenario (Exchange rate depreciation for Japanese Yen), the production in the block could never reach its peak.

While we have always been requiring capacity for our business use and APIC was not being able to use the facility for its products in the short term, we came to a joint conclusion that Neuland should buy back the asset from APIC and this could be an optimal solution for both the players. The long term prospects of APIC business remain intact and we firmly believe that the renegotiation would only yield in better relations between Neuland and APIC.

Q How do we see the GDS and CMS businesses three years from now and what would be the drivers of those?

A Fiscal 2016 by and large mirrors our strategic plan for the coming years. Having said that, our business is likely to grow keeping the essentials of FY16 as a base viz. change in the product mix, improvement on YoY margins and profitability along with focused approach on new product launches and regulatory compliance.

For the years to come, our strategy is to continue focus on niche APIs, growing our CMS business and maintain a dominant cost leadership position as a pure play API manufacturer with profitable growth. From a low teen margin in FY12 to mid teen margins in FY16, we hope to see our margins inching towards 18-20% in the coming years.

The key drivers to our strategy would be:

1. Continue to strengthen our positioning as a pure play API manufacturer and a preferred API source worldwide.
2. Continue to deploy our resources to improve product efficiencies as well as capacity debottlenecking.
3. Build upon the platform for high margin mature markets such as Japan and growth markets like Asia Pacific, Middle East, North Africa and Latin America.
4. Focus on high margin, niche and complex APIs belonging to therapies such as Anti-psychotic, Anti-asthmatic, Chronic Obstructive Pulmonary Disease, Anti-emetic amongst others.
5. Acquire new business for increasing contribution of margin accretive Custom Manufacturing Solutions (CMS).
6. Intend to build a portfolio of over 125 products with 150+ patents and 500+ DMFs filed for our non-infringing processes to ensure leadership in the API industry driven by innovation.

Q How do you plan to create long term value for the Company?

A For over three decades, the management has put in efforts to setup an enterprise that not only be profitable but also generate sustainable returns for its stakeholders. At multiple points, we have recalibrated our strategy to adjust with the changing business dynamics and now we are essentially in this journey of being a valuable enterprise. We are no further a commodity API player, today we stand diversified with a wide product mix, a multi layered revenue channel and most of the businesses on a growth trajectory.

We strongly feel that the time is right for us to grow on this foundation and deliver upon our strategic goals to create value for shareholders.

MANAGEMENT DISCUSSION & ANALYSIS

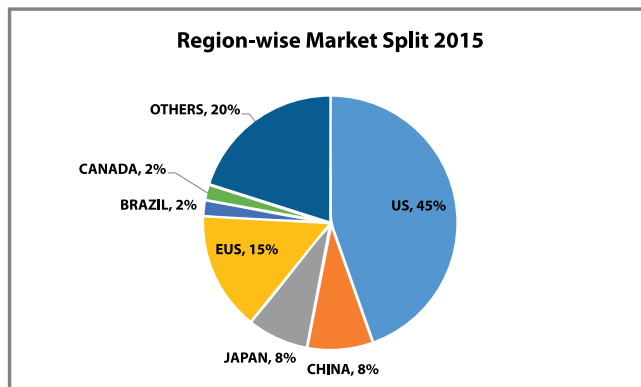

The Macro Scenario and global pharma market

The world economy continues to face a tough battle as it seeks to recover from a prolonged period of anemic growth and it appears to be slow moving, unstable and vulnerable to shocks. Global growth in 2015 is estimated at around 3.1%, and projections for 2016 are muted, with recovery projected to strengthen in 2017 and beyond, driven primarily by emerging markets and developing economies. The Indian economy, despite domestic concerns, continues to be a prime driver of the world-wide economic recovery.

Global spending on medicines will reach \$1.4 trillion¹ by 2020, an increase of 29-32% from 2015 compared to an increase of 35% in the prior 5 years. Spending will be concentrated in developed markets, with more than half for original brands and focused on non-communicable diseases. Specialty therapies will continue to be more significant in developed markets than in pharmerging markets and different traditional medicines will be used in developed markets compared to pharmerging markets. Spending growth will be driven by brands in developed markets and increased usage in pharmerging markets, while being offset by patent expiries. Brand spending in developed markets will increase by \$298 billion¹ in the 5 years to 2020 driven by new products and price increases primarily in the U.S., but will be offset by an estimated \$90 billion in net price reductions. Small molecule patent expiries will have a larger impact in 2016-2020 than in the prior five years, and there will be an increased impact from biologics. In 2020, the U.S., EU5, and Japan will have important differences in spending and growth dynamics from today. Pharmerging markets' spending will grow primarily from increased use of medicines while China,

the leading pharmerging country, will reach \$160-190 billion¹ in spending with slowing growth to 2020

The Pharmaceutical market in 2015 grew at 1.1% and recorded sales of \$947 Billion¹. The growth is primarily being driven by US, China,

Based on IMS MIDAS Dec. 2015

UK and India. The other markets have seen a decline in overall spending on medicines as a result of downward pressure on prices. The last year was also a major one in terms of the geographical shift as the Chinese market became the second largest in terms of value, overtaking Japan which saw a 7% decline in value. However, the EU5 as a block continue to remain significant, accounting for around 15% of the global market.

In 2020, more of the world's population will have access to medicine than ever before, albeit with substantial disparities. Patients will receive 4.5 trillion doses, up 24% from 2015, with most of the increase from countries closing the gap in per capita usage of medicines between developed and pharmerging countries. Over 50% of the world's population will consume more than 1 dose per person per day of medicines, up from one third of the world in 2005, driven by India, China, Brazil and Indonesia. Developed markets will continue to use more original branded and specialty medicines per capita while pharmerging markets will use more non-original brands, generics and over the counter medicines. The use of new medicines – first available in the prior 10 years – will represent 0.1% of volumes in pharmerging markets, compared to 2-3% in developed markets.

The continued expansion of healthcare access around the world portends a fundamental gap in delivery capacity where added patient access outruns staffing, infrastructure and funding sources. By 2020 we will see a substantial shift in many major markets away from the siloed budgeting that manages drug spending separately from other healthcare costs. Emerging economies will be focused on providing access and essential medicines to those in need to close endemic healthcare gaps. Providers in more parts of the world will be subject to performance or outcomes-based contracts and payment systems, bringing sharper scrutiny to patient outcomes and costs associated with patient care. More healthcare will be delivered using technology-enabled means, by providers other than doctors and in patients' homes, pharmacies and community-based facilities. The use of technology will be key

to the advancement of healthcare, especially in emerging markets where the expense of large scale infrastructure projects would delay progress.

India Pharmaceutical Sector

India is amongst the top global pharmaceutical producers in the world. It ranks amongst the top 5 API producers globally and accounts for over 30% of global production. It is also one of the most preferred suppliers of quality APIs globally largely on optimized manufacturing practices. The Domestic Indian Pharma Market (IPM) has continued to grow on the back of growing healthcare spending, rapid urbanization, increasing chronic diseases and intensifying health insurance penetration. IPM grew around 9% this fiscal.

Based on Pharmexcil Annual Report 2014-15

India as a global hub for medicines has continued to grow despite disruptions in terms of certain facilities failing to meet the regulatory compliance standards. Indian Pharma exports have grown from \$ 13.26 Bn in FY 12 estimated \$ 15.33 Bn at annualized growth rate of 5%.

Based on Pharmexcil Annual Report 2011-12

Based on Pharmexcil Annual Report 2014-15

However, what has been a more important indicator of India's significance in the world market has been the change in the nature of exports, as the formulations have increased as a proportion of exports from 63% in 2011-12 to 74% levels now. This highlights the importance of India as a market for Neuland as more formulations are being manufactured in India.

Active Pharmaceutical Ingredients (APIs)

From an API perspective, the global active pharmaceutical ingredients market is currently valued at approximately US\$ 120 billion and is anticipated to grow at a CAGR of 7% to reach US\$ 180 billion by 2020. North American API market is the largest followed by the Asia Pacific API market. It may be noted that the growth in the Asia Pacific API market is more than the North American API market. The overall growth can be amassed to increased globalization, generic-drug incursion, and the rising importance of emerging markets.

The demand for outsourced services within the global pharmaceutical industry remains intact as large pharmaceutical and biotechnology companies continue to outsource the development and manufacturing of APIs in order to focus on core priorities, access new technologies or additional capacity, preserve capital and ensure multiple sources of supply. Furthermore, many emerging pharmaceutical and generic drug companies outsource all process development and manufacturing and many larger pharmaceutical companies have publicly stated that they will increasingly outsource the manufacturing of drug products.

In recent years, drug manufacturers in advanced markets namely Europe and US have been facing increasing competition from developing nations given their capabilities in API manufacturing and finished dosage form drugs. While overall global demand for pharmaceutical products has benefited from the rapid growth in certain developing markets, the presence of manufacturers within these markets, who have lower cost structures, have resulted in downward pricing pressure throughout the pharmaceutical supply chain, and especially on generic APIs and certain development services for clinical phase products. Going forward, ICRA expects the downward pricing pressure to continue in the API segment and believes that regulatory compliance, product quality, pricing, and logistics will determine the extent of the long term impact of the low cost Asian competitors in the global bulk drug industry.

The role of Indian bulk drug manufacturers in the global pharmaceutical supply chain is gradually evolving with increasing presence in

synthesis and manufacture of late stage intermediates and APIs. Innovator companies have traditionally preferred to perform the final stages of API synthesis in-house or partner with a small group of European suppliers while relying on Indian suppliers for early stage intermediates. In recent years, as Indian bulk drug manufacturers have gradually begun to offer higher quality APIs coupled with low developments costs and complex synthesis capabilities, innovators have started to source late stage intermediates from India and in some case have formed partnerships with domestic manufacturers. However, given the fairly risk-averse profile of innovators with regards to outsourcing, the role of European bulk drug manufacturers such as Lonza and DSM in partnering with innovators for supply and synthesis of late stage APIs is expected to remain prominent in the near future.

Contract Manufacturing Services

Contract Manufacturing Services is growing rapidly in India on the back of expiring drug patents and a low-cost manufacturing base that the country offers. For the manufacture of medical products and drugs, India has a far superior edge over nations such as China, Vietnam and Ireland, due to resources including manpower, technically knowledgeable work force, and WHO-GMP approved production premises. A substantial 40% lower cost of operation and production is clearly the highlight for multinationals to consider India for their outsourcing needs.

With the advent of multinational pharmaceutical organisations, and their rapidly growing presence in the country, the concept of contract manufacturing has steadily evolved and quickly adapted, so as to encompass services such as basic manufacturing of medicinal products, formulation development, stability studies, and various stages of clinical trials. In addition, scale-up of drug syntheses, and late clinical trial studies have also been profitable protocols in this sphere. Also it is estimated that patented drugs worth US\$ 85 bn in potential annual sales in the USA would be off patent during the period 2014-2020. Price competitiveness

and manufacture of these generic drugs in the most cost efficient manner would be the key drivers boosting the prospects of the Indian players as India is known to have the world's best known low-cost manufacturing centers, with the highest number of U.S. Food and Drug Administration (USFDA) approved manufacturing plants outside the US.

The rising cost of manufacturing and some of the ageing plants of Europe reaching their life cycle conclusion may open up enormous opportunities to India's companies in contract manufacturing as European companies are also considering to either relocate those units in cost efficient centres like India or to outsource to India manufacturers.

The contract manufacturing space in India is expected to gain grounds in the near future and expected to grow by 17-18 per cent on a compound annual growth rate as efficiency in manufacturing and maturity of business models would lead to containment of cost of manufacturing to a great extent.

Company Overview

Neuland laboratories has completed 32 years as manufacturer of Active Pharmaceutical Ingredients (API). The Company is a preferred and reliable API source for leading pharmaceutical companies worldwide. In addition to proven experience in API manufacturing at varied scales, the Company also provides Custom Manufacturing Solutions (CMS) to develop and manufacture pharmaceutical ingredients and intermediates in line with rigorous customer expectations.

The Company's key strength includes process development, regulatory knowledge, controlled supply chain and online project management. It caters to diverse therapeutic categories including ophthalmic, schizophrenia, vasodilator, fluoroquinolones, iron-chelator, chronic obstructive pulmonary disease, cardiovascular, central nervous system, anti-infectives, antidepressant, anti-asthmatics, anti-fungal, anti-ulcerants and anti-spasmodics.

The Company's integrated and versatile current good manufacturing practice (CGMP) complying manufacturing facility are TGA, CGMP and WHO GMP approved, ISO 9001:2000, OHSAS and ISMS certified. Further the facilities have been audited by FDA (USA), EDQM (COS), PWDA (JAPAN), KFDA (KOREA), CANADA, EU and few others.

Business Highlights and Strategy

An important aspect of Neuland's transition strategy has been to make the Company proactive towards embracing change. The core of this has been to move the business mix from 'low-value, high-volume mix' to a 'high-value product mix'. The Company is also diversifying our revenue streams, by continuously expanding its bouquet of API product offerings and expanding the customer base of its contract-manufacturing business.

The Company's combined API bouquet has around 75 APIs, including those scheduled for launch over coming years. From here on, it aims to keep adding 8-10 new products every year. Its comparative strength stems from the set of molecules with

established leadership position on one hand and strategy to invest on niche molecules in a CAPEX-light manner on the other. The Company is well on course to enhance its position as a leading 100% non-competing API manufacturer that commands unmatched trust, confidence and premium amongst its customers.

Some of the key highlights of the year are:

- Scale up of 2 generic APIs – Lurasidone(anti-psychotic) and Rivaroxaban(anti-coagulant)
- Commercial launch of Salmeterol in UK, Germany and some other markets in Europe
- Received large value CMS supply order from an existing customer anticipating NDA filing next fiscal
- 4 process patents granted for three of our key molecules – Sugammadex, Lacosamide, Paliperidone Palmitate
- USFDA inspection in UNIT II of our Company

Risk Management

Risk is intrinsic to any business. It is a general practice for organizations to identify and mitigate such risk at regular intervals. As a manufacturer in Pharmaceutical industry your Company has to follow regulatory norms prevailing in the respective countries where the products are supplied. The Company is exposed to several risks, a few of the most prominent are as follows:

(a) Competition & Other Business Risks

The business of APIs is price competitive. Being a global player, the Company faces competitive risks from not only domestic players but also from other similar companies in other emerging markets. Apart from competition, another major factor is the very nature of the industry, where new therapies are introduced which can lead to erosion of demand for older products. To counter the risks posed with respect to the portfolio of the Company, the Company has a robust Portfolio Management process which deploys a two-pronged mitigation strategy to counter these risks. On one hand, it continues to maintain its competitive advantage by continuous innovation of its processes by upgrading quality and optimizing costs. On the other hand, the Company continues to launch new products and maintains a healthy pipeline of future launches in a therapeutic agnostic manner. In order to maintain its profitability despite competitive pressures, the Company has started skewing its product mix towards more of niche high-margin products.

(b) Foreign Currency Risk

The Company is a net foreign exchange earner and like the pharma sector, faces foreign currency fluctuation risk. Looking at the broad long term trend, the Company uses natural hedges and also hedges using PCFC/Bill discounting and keeps its position generally open. The Company reviews its Foreign Currency Risk and evaluates the same on a quarterly basis.

(c) Regulatory Risk

Pharmaceuticals business and that of APIs in particular are governed by strict regulations across key geographies and markets. Any non-adherence in complying with respective guidelines or regulations could impact the Company's business adversely. Compliances to these as well as other statutory obligations are deeply ingrained in the work

ethos of the Company. The Company works closely with its global strategic partners and keeps itself abreast with latest regulatory changes, as and when they happen. The Company has been stringently following all regulatory compliances. The fact that Neuland recently cleared FDA audit with minor observation dealt with subsequently indicates Company's credibility and reputation as an API Supplier.

(d) Delay in Patent expiry

The Company is dependent on generic pharmaceuticals in the API sector. Any delay in patent expiry on account of new improvements could impact the Company's prospects. During the past few years Company has optimized and expanded its product mix. The Company's portfolio ensures that delay in expiry of a few patents will not have any drastic impact on the Company.

(e) Economic Risk

Company's business from Pharmaceutical clients depends on demand. Sluggish demand due to slowdown in economic growth is likely to impact future order book. Company has active business presence in 85 countries across the world. The Company is also increasing proportion of revenue from CMS segment which will further curtail the risk.

Internal Controls

Neuland, the internal control procedures include internal financial controls, ensure compliance with various policies, practices and statutes considering the organization's growth and complexity of operations. The framework constantly monitors and assesses all aspects of risks associated with current activities and corporate profile, including scientific and development risks, partner interest risks, commercial and financial risks. In addition, Neuland has management reporting and internal control systems in place, that enable it to monitor performance, strategy, operations, business environment, organization, procedures, funding, risk and internal control. The internal auditors carry out extensive audits throughout the year across all locations and across all functional areas and submit their reports to the Audit Committee.

Your Company has a legal compliance program in place, supported by online system that covers the Company's manufacturing units as well. The purview of this system includes various statutes, such as industrial and labour laws, taxation laws, corporate and securities laws and health, safety and environment regulations.

Research & Development

Research and Development (R&D) team of your Company continues its ventures to ensure that identified products are scaled up at the appropriate time such that there is a steady stream of new products.

During the year under review, six of the existing products were taken up for process improvement involving cycle time reduction, recovery and reuse of solvents, adoption of green chemistry, yield improvement and backward integration of key starting materials.

The increase in the Custom Manufacturing Solutions (CMS) business coupled with customer satisfaction is significantly on account of your team showing utmost importance to the customer needs without compromising on the quality and timelines.

There is a great emphasis on QBD (Quality by Design) for robust processes. The team has been working on acquiring new capabilities, prominent among them being enzymatic research. The team has initiated work on the same while forging strong collaborative links which could play a key role in the future.

Environment, Health & Safety

Your Company is committed to excellence in environment, health and safety (EHS) and believes it is an important pillar for good corporate governance. Environmental protection, prevention of occupational illness and prevention of work injuries is a corporate responsibility. As a responsible corporate citizen, your Company continuously strives to serve the society through responsibly managing EHS related expectations of internal and external customers. To achieve this, we ensure that all our activities, products and services are carried out considering appropriate EHS related concerns and addressing the same. In this financial year there was no reportable accident/incident happened in your Company.

Your Company recognizes EHS stewardship as an integral part of everything it does to run its business and continually evaluates EHS related aspects and risks as part of organizational decision making process. EHS management systems drive the initiatives in areas of resource conservation, pollution prevention and prevention of work related ill health and injury. EHS management has been integral part of the business of your Company. The EHS division

has been set up at the units and at a corporate level. Performance of EHS function is being reviewed through EHS Management and Information System. Major focus is given to bring cultural change to achieve EHS excellence by training, visual management.

Your Company takes utmost care of health and safety of all persons working with the Company and is committed to protect health of persons and protect environment and actively seek to identify means and ways to minimize resource consumptions and waste generations. While developing processes at R&D, the Company adopts 'Green Chemistry'. On Occupational Health front, your Company has a full-fledged occupational health center with physician, support staff and required infrastructure. Hazard & Operability (HazOp) and Hazard Identification & Risk Assessment (HIRA) studies are carried out for processes and activities to minimize health and safety risks from such processes and activities.

The manufacturing units of your Company are equipped with adequate pollution control facilities like Biological treatment Plant, stripper, multi-effect evaporators, vertical thin film dryer and reverse osmosis facilities. Effluents generated in the Company's facilities are treated in these effluent treatment facilities and such treated effluents are fully recycled, thus helping to achieve your Company's aim to become Zero Liquid Discharge units.

Information Management Systems

Your Company's information technology tools are a key component in offering customers transparency, accountability and reliability while executing their orders. The system design and architecture is kept updated and customers are encouraged to track the progress in execution of their orders.

Most of the current manual business processes have been automated to bring transparency, which helps improving productivity. A new employee portal has been planned to be launched shortly which will cater to various Employee Self Service (ESS) related activities from anywhere and any device.

All the employees are aware and have been sensitized that all assets of your Company generate confidential information and therefore information security is viewed with great importance. Your Company appreciates the importance of IPR and has put in place procedures to protect intellectual properties. This includes comprehensive user awareness training for Information Security Management System (ISMS) adoption and its adherence followed by internal ISMS audit of all functions.

Human Resources

Neuland provides a safe and rewarding environment that attracts and retains good talent and where employees are engaged in delivering exceptional results to the customers and investors. The Company enhances the motivation and engagement of employees by examining, developing and introducing a consistent employment value proposition to the existing and prospective employees. The key objective is to align the talent management processes to drive the business objectives. As on March 31, 2016, 793 employees on the rolls of the Company are working towards accomplishing the Company's goal.

Career Development

Neuland creates a customized development plan to help employees achieve their career goals and partners with them to build a long and rewarding career by providing:

- On-the-job training
- Mentoring relationships
- Ongoing career development planning
- Internal and external/ off-site training programs
- Opportunities for internal career mobility/ Job Rotation

An Engaged Workforce

- Rewards & Recognition: The Company provides an environment that helps individuals to showcase their talents and rewards performance and results and rewards star performers through various reward and recognition programs.
- Fun@Work: An environment of 'Fun' at workplace is created by organising sports events and cultural events like Children's Day, Ethnic Day etc. every year for its employees at all work-locations.
- Frequent connect with employees under different platforms creates a sense of belongingness to the Company, its mission, vision and values. Some of such platforms that have been established are: Colours, Parichay, Samanvay, Conversation with CEO, Touchpoint, The Litmus, etc.

Outlook

The Neuland Team started the year 2016-17 with high optimism as it sees the possibilities for growth, and the growing certainty that its actions are bearing desired results. The Management of the Company has a clear visibility of business, and the actions required to actualize the plans. The Team is confident that the year further solidifies Neuland's path to becoming the leading pure -play API partner of choice to the pharmaceutical industry.

Business Review

The last financial year saw your Company take further steps towards achieving its vision of being the Leading Non-Competing API partner to the Pharmaceutical Industry in India and abroad. We have seen that as our relationships with key partners mature, Neuland is putting its best foot forward to reap the benefits. During the last year, your Company has seen key players come forward to seek a more strategic relationship with Neuland. Your Company is also seeing the initial effects of the improvements made in terms of product mix changes, cost optimisation and process improvements, that are expected to have a positive impact on the profit margins, efficiencies and overall profitability.

Your Company has continued its track record with leading Regulatory Authorities, successfully clearing an Audit by the USFDA during the year under review. Based on the track-record, and the steps being taken to ensure compliance on various fronts, we are confident that the management is leading your Company in the right direction which will see all the stakeholders gaining both in the short and the long term.

Dividend

The Board of Directors has recommended a final dividend of ₹ 2/- per equity share (20% dividend) to the members for their approval. The dividend, if approved, will be paid to members within the period stipulated by the Companies Act, 2013. The outflow on account of dividend (inclusive of tax on distributed profits) will be ₹ 213.84 lacs.

Share Capital

The equity shares of your Company continue to be listed and traded on the BSE Limited and National Stock Exchange of India Limited. The paid up equity share capital as on March 31, 2016 was ₹ 895.39 lacs. Your Company has not issued or allotted any shares or granted stock options or sweat equity during the year under review.

Outlook

While the Pharmaceutical Industry continues to be a highly competitive space especially in India, your Company has made significant strides in carving a niche for itself as a pure-play API player. This clear strategy has enabled the Company to leverage its portfolio with customers, and the changes made over the past few years will lead to tangible results. Your Company is well positioned to grow both the generic API business and the Custom Manufacturing Solutions business. This is clear from the change in the business mix over the last year and the prospects based on the projects on which the Company is working.

Your Company is well-equipped to take advantage of the opportunity which presents itself before the Company.

Consolidated Financial Statements

The Consolidated Financial Statements of the Company prepared in accordance with relevant Accounting Standards (AS) issued by the Institute of Chartered Accountants of India, and approved by the Board of Directors of the Company, form part of this Annual Report.

Annual accounts of the subsidiary companies are kept for inspection by any member at the Registered Office of the Company as well as at the Registered Office of the respective subsidiary companies. Any member interested in a copy of the accounts of the subsidiaries may write to the Company Secretary at the Registered Office of the Company.

A report on the performance and financial position of the subsidiaries, set out in the prescribed form AOC-1 in terms of proviso to sub section (3) of Section 129 of the Companies Act, 2013, is provided as Annexure A to the consolidated financial statement and hence not repeated here.

Subsidiaries & Joint Venture

Your Company has two subsidiaries, Neuland Laboratories K.K., Japan and Neuland Laboratories Inc. USA, working on market development. There are no associate companies within the meaning of Section 2(6) of the Companies Act, 2013 ("Act"). Further there has been no material change in the nature of business of the subsidiaries.

Your Company's joint venture, Cato Research Neuland India Private Limited, did not have any operations in the past couple of years. It was decided to dissolve the joint venture, as it was not able to generate any business due to significant challenges in the clinical trials environment in India, and necessary steps have been taken in respect of the same.

Holding Company

Your Company is a Subsidiary Company of Neuland Health Sciences Private Limited as per Section 2(87) of the Companies Act, 2013.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these stand alone financial statements based on our audit.
4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2016, and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

9. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure I, a statement on the matters specified in paragraphs 3 and 4 of the Order.
10. As required by Section 143(3) of the Act, we report that:

- a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- b. in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c. the standalone financial statements dealt with by this report are in agreement with the books of account;
- d. in our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended);
- e. on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified from being appointed as a director in terms of Section 164(2) of the Act;
- f. we have also audited the internal financial controls over financial reporting (IFCoFR) of the Company as of 31 March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date and our report dated 20 May 2016 as per Annexure II expressed an un-modified opinion;
- g. with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. as detailed in note 32 to the standalone financial statements, the Company has disclosed the impact of pending litigations on its standalone financial position;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
 - iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE II TO THE INDEPENDENT AUDITOR'S REPORT

on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. In conjunction with our audit of the standalone financial statements of Neuland Laboratories Limited ("the Company") as of and for the year ended 31 March 2016, we have audited the internal financial controls over financial reporting (IFCoFR) of the Company of as of that date.

Management's Responsibility for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India (ICAI) and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

Meaning of Internal Financial Controls over Financial Reporting

6. A Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION

(All amounts in ₹ lacs unless otherwise stated)

1. COMPANY OVERVIEW

Neuland Laboratories Limited ("the Company" or "NLL") is a public Company domiciled in India and incorporated in accordance with the provisions of Companies Act, 1956. Its shares are listed on two stock exchanges in India. The Company is engaged in manufacturing and selling of bulk drugs and caters to both domestic and international markets.

2. SIGNIFICANT ACCOUNTING POLICIES

a. Basis of preparation of standalone financial statements

The standalone financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles in India ("Indian GAAP"), including the Accounting Standards specified under Section 133 of the Companies Act, 2013 (the "Act") read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended), pronouncements of The Institute of Chartered Accountants of India ('ICAI'). The financial statements have been prepared on an accrual basis and the accounting policies applied by the Company are consistent with those used in the prior period.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Act. Based on the nature of business, the Company has ascertained its operating cycle as up to twelve months for the purpose of current and non-current classification of assets and liabilities.

b. Use of estimates

The preparation of the standalone financial statements in conformity with Indian GAAP requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the standalone financial statements and reported amounts of income and expenses during the period. Examples of such estimates include provisions for trade receivables, doubtful loans and advances, future obligations under employee retirement benefit plans, income taxes and the useful lives of fixed assets.

Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any revision to accounting estimates is recognised prospectively in the current and future periods.

c. Fixed assets

Fixed assets are stated at cost, except in respect of certain land, buildings, plant and machinery which are shown at re-valued values, less accumulated depreciation, amortization and impairment losses, if any. Cost comprise of purchase price, freight, non-refundable duties, taxes and any other cost attributable to bringing the asset to its working condition for its intended use. Assets retired from active use and held for disposal are stated at their estimated net realisable values or net book values, whichever is lower.

Exchange rate variations relating to long-term foreign currency monetary items, which are utilized in acquisition of a depreciable capital assets are added to or deducted from the cost of the asset and depreciated over the remaining useful life of the asset.

d. Borrowing costs

Borrowing costs that are attributable to the acquisition and construction of a qualifying asset are capitalised as a part of the cost of the asset. Other borrowing costs are recognised as an expense in the year in which they are incurred.

e. Depreciation

Depreciation is provided on straight line method ('SLM') based on useful lives of the assets as estimated by management which coincides with rates prescribed under Schedule II to the Act.

Depreciation on sale/deduction from fixed assets is provided for up to the date of sale /deduction as the case may be.

(All amounts in ₹ lacs except for share data or as otherwise stated)

f. Intangible assets

Intangible assets are stated at cost of acquisition less accumulated amortization. Computer software expenditure is amortized over a period of three years on straight line method.

g. Impairment of assets

The carrying amounts of assets, both tangible and intangible, are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

h. Investments

Investments that are readily realizable and intended to be held for not more than a year and current maturities of long-term investments are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the long-term investments.

i. Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the collectability is reasonably assured.

Sale of goods:

Revenue from sale of goods is accounted for when significant risks and rewards are transferred to buyers, which generally coincide with the dispatch of goods from the factory premises, or when delivery is delayed at the buyer's request and the buyer takes title and accepts the invoice. Revenue is inclusive of excise duty but net of sales tax, trade discounts and returns.

Sale of services:

Revenue from sale of services is recognized as per the terms of contracts with customers when the related services are performed, when the agreed milestones are achieved and when the Company completes all its performance obligations.

Export entitlements:

Export entitlement / incentives are recognised when the right to receive credit is established in respect of the exports made and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds and utilization of export incentives within its validity period.

Interest income:

Interest income is recognized on the time proportion basis taking into account the amount outstanding and the interest rate applicable.

Dividend income:

Dividend income is recognized when the right to receive the payment is established.

j. Inventories

Raw material, stores and spare parts are carried at cost. Cost includes purchase price excluding taxes those are subsequently recoverable from the concerned authorities, freight inwards and other expenditure incurred in bringing such inventories to their present location and condition. Cost of inventories is determined using the weighted average cost method.

The carrying cost of raw materials, stores and spare parts are appropriately written down when there is a decline in replacement cost of such materials and finished products in which they will be incorporated are expected to be sold below cost.

Finished goods and work in progress are valued at the lower of cost and net realizable value. Cost of work in progress and manufactured finished goods is determined on weighted average basis and comprises cost of direct material, cost of conversion and other costs incurred in bringing these inventories to their present location and condition. Excise duty liability is included in the valuation of closing inventory of finished goods.

(All amounts in ₹ lacs except for share data or as otherwise stated)

k. Employee benefits

Provident Fund

The Company contributes to the provident fund maintained by the Regional Provident Fund Commissioner, in accordance with the Employees Provident Fund and Miscellaneous Provision Act, 1952. The provident fund plan is a defined contribution plan and contribution paid is recognised as an expense in the period in which it becomes due. There are no other obligations of the Company other than the contributions made to the fund.

Gratuity

Gratuity is a post-employment defined benefit obligation. An independent actuary, using the projected unit credit method calculates the defined benefit obligation annually. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are credited or charged to the Statement of Profit and Loss in the period in which such gains or losses arises.

Employee state insurance

The Company contributes to the Employees State Insurance Fund maintained by the respective state authorities, in accordance with Employees State Insurance Act, 1948. The plan is a defined contribution plan and contribution paid or payable is recognised as an expense in the period in which it becomes due. There are no other obligations of the Company other than the contributions made to the funds.

Compensated absences

The Company measures the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement that has accumulated at the balance sheet date. An independent actuary, using the projected unit credit method calculates the defined benefit obligation annually. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are credited or charged to the Statement of Profit and Loss in the year in which such gains or losses arises.

Employee share based payments

Recognition, measurement and disclosures relating to employee stock compensation is done in accordance with the guidance note on accounting for Employee Share-based Payments ("the Guidance Note"), issued by the ICAI. The Company uses intrinsic value method for the purposes of measurement of compensation cost and the fair value method for the purposes of additional disclosures in the financial statements. An independent valuer determines the intrinsic value of the underlying shares as on the date of the grant and compensation expenses, where applicable, are recognized as deferred employee stock compensation and is charged to statement of profit and loss using the straight line method over the vesting period.

l. Foreign currency transactions

Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are reported at year-end rates. Non-monetary items which are carried in terms of historical cost denominated in foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Exchange differences

Exchange differences arising on the settlement of foreign currency monetary items or on reporting monetary items of the Company at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.

m. Taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax

(All amounts in ₹ lacs except for share data or as otherwise stated)

authorities in accordance with the Indian Income Tax Act, 1961. Deferred income taxes reflect the impact of timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier periods.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

Unrecognized deferred tax assets of earlier years are re-assessed and recognised to the extent that it has become reasonably certain or virtually certain, as the case may be that future taxable income will be available against which such deferred tax assets can be realised. The carrying amount of deferred tax assets are reviewed at each balance sheet date.

The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Minimum Alternative Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance note issued by the ICAI, the said asset is created by way of a credit to the Statement of profit and loss and shown as MAT credit entitlement.

n. Earnings per equity share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

o. Provisions and contingent liabilities

A provision is recognised when the Company has a present obligation as a result of past event i.e., it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet

date and adjusted to reflect the current best estimates. A disclosure of the contingent liability is made when there is a possible or a present obligation that may, but probably will not, require an outflow of resources.

p. Cash flow statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

q. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at bank and in hand and short-term investments with original maturity of less than three months.

3. Change in accounting estimate

From the previous year, in accordance with the requirements to Schedule II of the Act, the Company had re-assessed the useful lives and adopted the rates prescribed under Schedule II. Accordingly, depreciation on the tangible fixed assets for the year ended 31 March 2015 was lower by ₹ 33.59 and further an amount of ₹ 88.03 and ₹ 10.73 has been charged to the general reserve and revaluation reserve of the previous year, in respect of the assets whose remaining useful life was ₹ Nil as at 1 April 2014 in accordance with Schedule II of the Act.

(d) Transactions with related parties

In accordance with the applicable provisions of the Income Tax Act, 1961, the Company is required to use certain specified methods in assessing that the transactions with the related parties, are carried at an arm's length price and is also required to maintain prescribed information and documents to support such assessment. The appropriate method to be adopted will depend on the nature of transactions / class of transactions, class of associated persons, functions performed and other factors as prescribed. Based on certain internal analysis carried out, management believes that transactions entered into with the related parties were carried out at arms length prices. The Company is in the process of updating the Transfer Pricing documentation for the financial year ended 31 March 2015. In opinion of the management, the same would not have an impact on these financial statements. Accordingly, these financial statements do not include the effect of the transfer pricing implications, if any.

INDEPENDENT AUDITOR'S REPORT

To the Members of Neuland Laboratories Limited

Report on the Consolidated Financial Statements

1. We have audited the accompanying consolidated financial statements of Neuland Laboratories Limited, ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31 March 2016, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

2. The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group, in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended). The Holding Company's Board of Directors, and the respective Board of Directors of the subsidiaries included in the Group, are responsible for the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. Further, in terms with the provisions of the Act, the respective Board of Directors of the Holding Company and its subsidiary, which is incorporated in India are responsible for maintenance of adequate accounting records; safeguarding the assets; preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements, which have been used for the purpose of preparation of the consolidated financial statements by the directors of the Holding Company, as aforesaid.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.
4. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the auditor's report under the provisions of the Act and the Rules made thereunder.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.
7. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph 9 of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on the financial statements of the subsidiaries as noted below, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, as at 31 March 2016, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Other Matters

9. (a) We did not audit the financial statements of 2 subsidiaries, included in the consolidated financial statements, whose financial statements reflect total assets (after eliminating intra-group transactions) of ₹101.57 lakhs as at 31 March 2016, total revenues of

₹0.27 lakhs and net cash flows amounting to ₹35.24 lakhs for the year ended on that date. These financial statements have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.

- (b) We did not audit the financial statements of 1 subsidiary included in the consolidated financial statements, whose financial statements reflect total assets (after eliminating intra-group transactions) of ₹Nil as at 31 March 2016, total revenues (after eliminating intra-group transactions) of ₹0.25 lakhs and net cash flows amounting to ₹(17.34) lakhs for the year ended on that date. These financial statements are unaudited and have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the management, these financial statements are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors and the financial statements certified by the management.

Report on Other Legal and Regulatory Requirements

10. As required by Section 143(3) of the Act, and based on the auditor's reports of subsidiaries, we report, to the extent applicable, that:

- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
- b) in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;
- c) the consolidated financial statements dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
- d) in our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended);
- e) on the basis of the written representations received from the directors of the Holding Company, taken on record by the Board of Directors of the Holding Company, none of the directors of the Group companies, incorporated in India is disqualified from being appointed as a director in terms of Section 164 (2) of the Act;
- f) we have also audited the internal financial controls over financial reporting (IFCoFR) of the Holding Company, as of 31 March 2016, in conjunction with our audit of the consolidated financial statements of the group for the year ended on that date and our report dated 20 May 2016 as per annexure I expressed an unmodified opinion;
- g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) as detailed in Note 32, the consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group;
 - (ii) the Group, did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - (iii) there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary Company, incorporated in India.

ANNEXURE I TO THE INDEPENDENT AUDITOR'S REPORT

Independent Auditor's report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. In conjunction with our audit of the consolidated financial statements of the Neuland Laboratories Limited ("the Holding Company") and its subsidiaries, (the Holding Company and its subsidiaries together referred to as "the Group"), as of and for the year ended 31 March 2016, we have audited the internal financial controls over financial reporting (IFCoFR) of the Holding Company as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Holding Company's business, including adherence to the Holding Company's policies, the safeguarding of the Holding Company's assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the IFCoFR of the Holding Company based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India (ICAI) and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note"), issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the IFCoFR of the Holding Company.

Meaning of Internal Financial Controls over Financial Reporting

6. A Holding Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Holding Company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Holding Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Holding Company are being made only in accordance with authorisations of management and directors of the Holding Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the holding Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that the IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company has, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

9. We did not audit the IFCoFR insofar as it relates to 1 subsidiary which is incorporated in India, whose financial statements reflect total assets (after eliminating intra-group transactions) of ₹ Nil as at 31 March 2016, total revenues (after eliminating intra-group transactions) of ₹ 0.25 lakhs and net cash flows amounting to ₹ (17.34) lakhs for the year ended on that date. Our opinion is not modified in respect of the above matter with respect to our reliance on the work done by and the reports of the other auditors.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION

(All amounts in ₹ lacs unless otherwise stated)

1. COMPANY OVERVIEW

Neuland Laboratories Limited ("the Company" or "NLL") is a public Company domiciled in India and incorporated in accordance with the provisions of Companies Act, 1956. Its shares are listed on two stock exchanges in India. The Company is engaged in manufacturing and selling of bulk drugs and caters to both domestic and international markets.

2. SIGNIFICANT ACCOUNTING POLICIES

a. Basis of consolidation

The consolidated financial statements of Neuland Laboratories Limited ("the Company") together with its subsidiaries (collectively referred as the 'Group' or the 'consolidating entities') are prepared under historical cost convention on accrual basis, in accordance with the generally accepted accounting principles in India ("Indian GAAP") and comply in all material respects with the mandatory Accounting Standards ("AS") notified under the Companies Act, 2013 ("the Act") read with the Rule 7 of the Companies (Accounts) Rules, 2014 (as amended), pronouncements of The Institute of Chartered Accountants of India ('ICAI'). The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible in the same manner as the Company's separate financial statements, except otherwise stated for like transactions in similar circumstances.

Investments in subsidiaries, except where the investments are acquired exclusively with a view to its subsequent disposal in the near future, are accounted in accordance with accounting principles as defined in the Accounting Standard ('AS') 21 'Consolidated Financial Statements', as prescribed under the Rules.

The financial statements of the consolidating entities are added on a line-by-line basis and material inter-Company balances and transactions including unrealized gain and loss from such transactions are eliminated upon consolidation. The following subsidiaries have been considered for the purpose preparation of consolidated financial statements:

Names of the consolidating entities	Country of Incorporation	Percentage holding /interest (%)	
		As at 31 March	
		2016	2015
Subsidiaries:			
Neuland Laboratories Inc.	United States of America	100.00	100.00
Neuland Laboratories KK	Japan	100.00	100.00
Cato Research Neuland India Private Limited	India	70.00	70.00

b. Use of estimates

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the consolidated financial statements and reported amounts of income and expenses during the period. Examples of such estimates include provisions for doubtful debtors and other receivables, provision for inventories, future obligations under employee retirement benefit plans, income taxes, useful lives of fixed assets and carrying value of intangible assets.

Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any revision to accounting estimates is recognised prospectively in the current and future periods.

c. Fixed assets

Fixed assets are stated at cost, except in respect of certain land, buildings, plant & machinery which are shown at re-valued values, less accumulated depreciation, amortization and impairment losses, if any. Cost comprise of purchase price, freight, non-

(All amounts in ₹ lacs except for share data or as otherwise stated)

refundable duties, taxes and any other cost attributable to bringing the asset to its working condition for its intended use. Assets retired from active use and held for disposal are stated at their estimated net realisable values or net book values, whichever is lower.

Exchange rate variations relating to long-term foreign currency monetary items, which are utilized in acquisition of a depreciable capital assets are added to or deducted from the cost of the asset and depreciated over the remaining useful life of the asset.

d. Depreciation

Depreciation is provided on Straight Line Method ('SLM') based on useful lives of the assets as estimated by management which coincides with rates prescribed under Schedule II to the 2013 Act.

Depreciation on sold/discarded fixed assets is provided for up to the date of sale /discarded as the case may be.

e. Borrowing costs

Borrowing costs that are attributable to the acquisition and construction of a qualifying asset are capitalised as a part of the cost of the asset. Other borrowing costs are recognised as an expense in the year in which they are incurred.

f. Intangible assets

Intangible assets are stated at cost of acquisition less accumulated amortization. Computer software expenditure is amortized over a period of three years on straight line method.

g. Impairment of assets

The carrying amounts of assets, both tangible and intangible, are reviewed at each balance sheet date if there is any indication of impairment based on internal and/or external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

h. Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments.

i. Inventories

Raw material, stores and spare parts are carried at cost. Cost includes purchase price excluding taxes those are subsequently recoverable from the concerned authorities, freight inwards and other expenditure incurred in bringing such inventories to their present location and condition. Cost of inventories is determined using the weighted average cost method.

The carrying cost of raw materials, stock-in-trade, packaging materials and stores and spare parts are appropriately written down when there is a decline in replacement cost of such materials and finished products in which they will be incorporated are expected to be sold below cost.

Finished goods and work in progress are valued at the lower of cost and net realizable value. Cost of work in progress and manufactured finished goods is determined on weighted average basis and comprises cost of direct material, cost of conversion and other costs incurred in bringing these inventories to their present location and condition. Excise duty liability is included in the valuation of closing inventory of finished goods.

j. Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue measured and collectability is reasonably assured.

Sale of goods:

Revenue from sale of goods is accounted for when significant risks and rewards are transferred to buyers, which generally coincide with the dispatch of goods from the factory premises, or when delivery is delayed at the buyer's request and the buyer takes title and accepts the invoice. Revenue is inclusive of excise duty but net of sales tax, trade discounts and returns.

(All amounts in ₹ lacs except for share data or as otherwise stated)

Sale of services:

Revenue from sale of services is recognized as per the terms of contracts with customers when the related services are performed or the agreed milestones are achieved and when the Company completes all its performance obligations.

Export entitlements:

Export entitlement / incentives are recognised when the right to receive credit is established in respect of the exports made and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds and utilization of export incentives within its validity period.

Interest income:

Income from interest on deposits is recognized on the time proportionate methods taking into account the amount outstanding and the interest rate applicable.

Dividend income:

Dividend income is recognized when the right to receive the payment is established.

k. Taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961. Deferred income taxes reflect the impact of timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier periods.

Deferred tax is measured based on the tax rates and the tax laws enacted or subsequently enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

In situations where the Group has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

Unrecognized deferred tax assets of earlier years are re-assessed and recognised to the extent that it has become reasonably certain or virtually certain, as the case may be that future taxable income will be available against which such deferred tax assets can be realised. The carrying amount of deferred tax assets are reviewed at each balance sheet date.

The Group writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Minimum Alternative tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance note issued by the ICAI, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT credit entitlement.

l. Earnings per equity share

Basic earnings per equity share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

m. Foreign currency transactions

Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are reported at year-end rates. Non-monetary items which are carried in terms of historical cost denominated in foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

(All amounts in ₹ lacs except for share data or as otherwise stated)

Exchange differences

Exchange differences arising on the settlement of foreign currency monetary items or on reporting monetary items of the Company at rates different from those at which they were initially recorded during the year, or reported in previous consolidated financial statements, are recognized as income or as expenses in the year in which they arise.

On consolidation, the assets and liabilities of the Group's overseas operations are translated at exchange rates prevailing on the balance sheet date. Income and expenditure items are translated at the average exchange rates for the year. Exchange differences arising in case of Integral Foreign operations are recognized in the Statement of Profit and Loss and exchange differences arising in case of Non integral Foreign Operations are recognized in the Group's foreign currency translation reserve classified under reserves and surplus.

n. Employee benefits

Defined contribution plan

In respect of the Company and Indian subsidiary, retirement benefits in the form of contribution to provident fund scheme and employee state insurance scheme are charged to statement of profit and loss of the year when the contribution to the respective fund is due. There are no other obligations other than the contribution payable to the respective fund.

Defined benefit plan

Gratuity is a post-employment defined benefit plan. An independent actuary, using the projected unit credit method calculates the defined benefit obligation annually. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are credited or charged to the statement of profit and loss in the period in which such gains or losses arises.

Compensated absences

As per the Company policy, eligible leaves can be accumulated by the employees and carried forward to future periods either to be utilized during the service, or encashed. Encashment can be made during service or on resignation, or retirement of the employee. The value of benefits is determined based on an independent actuarial valuation using the projected unit credit method as at the year end. Actuarial gains and losses are recognized immediately in the statement of profit and loss.

o. Leases

Where the lessor effectively retains all risk and benefits of ownership of the leased items, such leases are classified as operating lease. Operating lease payments are recognized as an expense in the Statement of profit and loss on a straight line basis.

p. Provisions and contingent liabilities

A provision is recognised when the Group has a present obligation as a result of past event i.e., it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. A disclosure of the contingent liability is made when there is a possible or a present obligation that may, but probably will not, require an outflow of resources.

q. Cash flow statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

r. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at bank and in hand and short-term investments with original maturity of less than three months.

3. CHANGE IN ACCOUNTING ESTIMATE:

From the previous year, in accordance with the requirements to Schedule II of the Act, the Company had re-assessed the useful lives and adopted the rates prescribed under Schedule II. Accordingly, depreciation on the tangible fixed assets for the year ended 31 March 2015 was lower by ₹ 33.59 and further an amount of ₹ 88.03 and ₹ 10.73 has been charged to the general reserve and revaluation reserve of the previous year, in respect of the assets whose remaining useful life was ₹ Nil as at 1 April 2014 in accordance with Schedule II of the Act.

- (iii) Dr. D. R. Rao and D. Sucheth Rao has extended personal guarantees in connection with the loans availed by the Company. Refer note 7 and 11.

(d) Transactions with related parties

In accordance with the applicable provisions of the Income Tax Act, 1961, the Company is required to use certain specified methods in assessing that the transactions with the related parties, are carried at an arm's length price and is also required to maintain prescribed information and documents to support such assessment. The appropriate method to be adopted will depend on the nature of transactions / class of transactions, class of associated persons, functions performed and other factors as prescribed. Based on certain internal analysis carried out, management believes that transactions entered into with the related parties were carried out at arms length prices. The Company is in the process of updating the Transfer Pricing documentation for the financial year ended 31 March 2016. In opinion of the management, the same would not have an impact on these financial statements. Accordingly, these financial statements do not include the effect of the transfer pricing implications, if any.
